PUZZLE / DEFINITION WORKSHEET / SOLUTION

VOCABULARY CLUES / Use the word bank on page 1.

1. A large body orbiting a star under planetary criteria

2. A luminous body powered mainly by nuclear fusion

3. A natural satellite of a larger body

4. A small icy body that can develop a coma

5. A small rocky body orbiting a star

6. A light streak from material entering an atmosphere

7. A space rock fragment that reaches a surface

8. A gravitationally bound system of stars and other matter

9. A cloud of gas or dust in space

10. A very luminous active galactic nucleus

11. A rotating neutron star seen through regular pulses

12. A body orbiting another body
